MILFORD
INVESTED IN YOU

This document gives you important information about this investment to help you decide whether you want to invest. There is other useful information about this offer on www.disclose-register.companiesoffice.govt.nz. Milford Funds Limited has prepared this document in accordance with the Financial Markets Conduct Act 2013. You can also seek advice from a financial advice provider to help you to make an investment decision.

Key Information Summary

What is this?

This is a managed investment scheme. Your money will be pooled with other investors' money and invested in various investments. Milford Funds Limited ('Milford', 'we', 'our', 'us') will invest your money and charge you a fee for its services. The returns you receive are dependent on the investment decisions of Milford and the performance of the investments. The value of those investments may go up or down. The types of investments and the fees you will be charged are described in this document.

What will your money be invested in?

The Milford Investment Funds ('Milford Funds') scheme offers twelve funds ('Funds') for you to invest in. These investment options are summarised below. More information about the investment target and strategy for each investment option is provided at Section 3 "Description of your investment option(s)".

See Section 4 "What are the risks of investing?" for an explanation of the risk indicator and for information about other risks that are not included in the risk indicator. To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz/tools/investor-kickstarter.

Who manages the Milford Funds?

The manager of Milford Funds is Milford. See Section 7 "Who is involved?" for more information.

What are the returns?

The return on your investment comes from:

- any change in the unit price; and
- any income distributions made from the Fund.

See Section 2 “How does this investment work?” for more information.

How can you get your money out?

Investments in the Funds are redeemable. As described in Section 2 “How does this investment work?” we may, upon providing notice to the Supervisor, defer payment or suspend your ability to withdraw your investment, in certain circumstances.

Your investment in these Funds can be sold but there is no established market for trading these financial products. This means that you may not be able to find a buyer for your investment.

How will your investment be taxed?

Each Fund is a portfolio investment entity (‘PIE’). The amount of tax you pay in respect of a PIE is based on your prescribed investor rate (‘PIR’). To determine your PIR, go to <https://www.ird.govt.nz/pir>. See Section 6 of this PDS (What taxes will you pay?) on page 16 for more information.

Where can you find more key information?

Milford is required to publish quarterly updates for each Fund. The updates show the returns, and the total fees actually charged to investors, during the previous year.

The latest Fund Updates are available at www.milfordasset.com/forms-documents/fund-updates. We will also give you copies of those documents on request.

How does this investment work?

02.

The Milford Funds are a managed investment scheme (and each Fund is established as a trust) that is governed by a trust deed.

Your money is pooled with that of other investors of the relevant Fund. However, the assets of one Fund cannot be used to cover the liabilities of another Fund. The interests of investors are represented by units, which confer an equal interest in a Fund and are of equal value.

The value of units in each Fund will increase or decrease according to the changing value of the underlying assets in which the Fund has invested.

The Funds are actively managed portfolios that provide for a broad range of investment options.

The Funds also utilise the benefits of the PIE tax regime. The Funds are managed by Milford, a wholly owned subsidiary of Milford Asset Management Limited.

We intend for:

- Diversified Income, Conservative, Trans-Tasman Bond and Global Corporate Bond, to make distributions quarterly; and
- Trans-Tasman Equity, to make distributions semi-annually.

Please see the Investor Guide for distribution dates.

No other Fund currently makes regular distributions. You can, however, make withdrawals from any Fund at any time.

A distribution represents a percentage of income received from your investment.

Making investments

The minimum initial lump sum investment per Fund is \$1,000. For Trust, Company and Partnership applications the minimum initial investment per account is \$100,000 (with a minimum allocation per Fund of \$1,000). You can also make additional lump sum and/or regular contributions to a Fund at any time. We may impose conditions or restrictions on the offer of units as determined by us from time to time.

The unit price for investments and withdrawals is calculated by dividing the net asset value of the Fund by the number of units on issue. Costs of acquiring or selling investments is taken into account in setting the unit price payable (see “Swing pricing adjustment” in Section 5).

In certain circumstances when determining the unit price received for investments and withdrawals, the Manager may include increased trading costs that may be incurred as a result of large transactions.

Withdrawing your investments

You may withdraw all or part of your investment at any time by completing a withdrawal request. We will generally aim to make the payment within three business days after the day used for the unit price.

While it is intended that valid applications and withdrawals will be processed at the next available unit price after the application or withdrawal process is completed, up to 10 business days’ notice of a large application or withdrawal may at times be required.

Unless you are fully withdrawing your investment (or we determine otherwise), a minimum balance per Fund of \$1,000 must be maintained. All units are redeemed for cash.

We may, with prior notice to the Supervisor, suspend withdrawal requests or defer payment of withdrawals where, due to certain circumstances arising (for example, political or market conditions), we form the opinion that it is not practicable or would be prejudicial to the general interests of unitholders, or that suspension is desirable for the Fund.

How to switch between Funds

You can switch between Funds. This will be considered a withdrawal from one Fund and an application for units in another Fund. All the conditions and restrictions on applications and withdrawals will therefore apply.

Need more information?

More information on investing and withdrawals is included in the Investor Guide found at www.milfordasset.com/forms-documents or www.disclose-register.companiesoffice.govt.nz.

^ Note: Targets indicate what are expected to apply over the course of an economic cycle and should be considered as general only. Milford is an active manager and may at times deploy investment strategies that differ (within the allowable minimum and maximum bounds) materially from the above targets.

^^ Absolute return funds target positive market returns as well as managing downside risk in falling markets.

* See Section 4 “What are the risks of investing?” for an explanation of the risk indicator.

** To calculate the risk indicator for the following Funds we have used a mix of actual returns and market index returns to provide completed 5 year returns as they were launched within the last 5 years: Global Corporate Bond (actual returns used have been adjusted for current annual fund charges), Australian Absolute Growth, Cash and Aggressive.

Market index returns have been used for the period in the table below to calculate the risk indicator for:

- Global Equity, as its investment policy has changed significantly and its returns before the change would not reflect its current investment policy; and
- Dynamic as its investment strategy has changed to facilitate investment in a broader range of securities.

This means that the risk indicators for the Funds in the table below do not reflect the actual returns for the period specified. Therefore these risk indicators may provide a less reliable indicator of the potential future volatility of these Funds.

Fund	Period of market returns used
Australian Absolute Growth	01/01/2017 to 28/02/2018
Cash	01/01/2017 to 28/02/2019
Global Corporate Bond	01/01/2017 to 31/01/2017
Global Equity	01/01/2017 to 30/09/2018
Dynamic	01/01/2017 to 31/10/2019
Aggressive	01/01/2017 to 20/06/2021

*** After the base fund fee but before tax and before the performance fee (if applicable).

**** The Cash Fund’s fixed interest allocation will be invested in commercial paper and term deposits.

† The Manager may accept certain categories of new investment at its discretion from time to time.

Note: Relevant benchmarks and relevant market indices can be found in the Statement of Investment Policy and Objectives (‘SIPO’).

We regularly review our SIPO in consultation with the Supervisor. We will notify you of any material changes before making them. Changes will also be communicated no later than the next quarterly Fund Update. The current SIPO can be found at: www.milfordasset.com/forms-documents or at www.disclose-register.companiesoffice.govt.nz.

Further information about the assets in the Funds can be found in the Fund Updates at: www.milfordasset.com/forms-documents/fund-updates or at: www.disclose-register.companiesoffice.govt.nz.

What are the risks of investing?

Interest rate risk

The market value of the investments of a Fund can change due to changes in interest rates. The market value of fixed interest securities can fluctuate significantly with relatively small changes in interest rates.

Credit risk

The value of debt securities may be impacted by the issuer's ability to pay interest and principal owed when due. If the issuer's ability to meet its payment obligations is doubted, the value of the debt security may decrease.

Equity risk

An investment may be affected by unexpected changes in that company's operations or business environment, including risk of insolvency. If this occurs, the Fund may receive a smaller or no return from, or it may lose, its investment in the entity.

Liquidity risk

Some investments including investments in other Milford Funds may not be easily converted into cash with little or no loss of capital and minimum delay, because of insufficient availability of buyers, suspension of trading, fund outflows, or market disruptions. Securities of small entities in particular may become less liquid. Milford may hold unlisted securities that are less liquid than listed securities.

Currency risk

Where investments are made outside of New Zealand, returns may be affected by movements between other currencies and the New Zealand dollar.

More detail on these risks and other general risks is included in Milford's Other Material Information document available at www.milfordasset.com/forms-documents or www.disclose-register.companiesoffice.govt.nz.

What are the fees?

05.

You will be charged fees for investing in the Milford Funds. Fees are deducted from your investment and will reduce your returns. If Milford invests in other funds, those funds may also charge fees. The fees you pay will be charged in two ways:

- regular charges (for example, annual fund charges). Small differences in these fees can have a big impact on your investment over the long term
- one-off fees (currently none).

Total estimated annual fund charges

Global Equity	1.35%	0%	1.35%		
Trans-Tasman Equity	1.05%	0%	1.05%		
Dynamic	1.35%	0%	1.35%		

* To estimate the annual performance fee charges, we have simulated the performance of the Fund using its assumed risk and return profile, against its stated performance benchmark over a 20-year time horizon.

The estimated performance fee for Global Equity, Trans-Tasman Equity and Dynamic is 0% as their performance benchmark is the market index and they would need to achieve above the market index for a performance fee to be payable.

** Australian Absolute Growth base fund fee reduces by 0.15% if at the end of the month the Fund is invested in greater

than 50% cash. For the purposes of a reduced base fund fee, cash includes investments in term deposits. The reduced fee will be applied in the following month.

*** The Aggressive Fund has invested in a related Milford Private Equity Fund that provides a designated profit share to a related Milford entity. As at the date of this document, the amount concerned is deemed immaterial.

^ See over for description of financial adviser fees.

What are the fees?

Historical average performance fees for the latest 5 completed performance years since each Fund's inception (or, since inception for funds with less than a 5-year performance history)^:

Fund	Historical average performance-based fees
Diversified Income	0.37%
Balanced	0.36%
Active Growth	0.56%
Australian Absolute Growth	0.55%
Global Equity	1.01%*
Trans-Tasman Equity	0.40%
Dynamic	0.53%

^ The historical average performance-based fees are provided for informational purposes only and may not reflect the performance fees that will be charged by the funds in the future.

* The Global Equity historical average performance based fee is calculated from 1 April 2019, being the start of the first full performance year since the fund hurdle rate of return was changed.

Please refer to the Investor Guide for more information on performance fees.

Annual fund charges are made up of:

- a base fund fee
- any applicable estimated performance fees.

Total annual fund charges are set out as a percentage of the Fund's net asset value. Actual fund charges over the past disclosure year are available in the latest Fund Updates.

The base fund fee covers:

- normal Fund operating costs such as investment management, supervisor, custodial, fund accounting, audit and legal costs and is paid monthly. These fees are deducted from, and are reflected in, the Fund unit prices of the relevant Funds; and
- estimated underlying external fund charges, where applicable.

Performance fees are deducted from, and are reflected in, the unit prices of the relevant Funds, or deducted from and reflected in the unit prices of other Milford managed funds the relevant Funds may invest in.

Fees are inclusive of GST where applicable.

We can charge other fees on an individual basis for investor specific decisions or actions, such as entry or exit fees. At the date of this document, there is no separate entry or exit fee for acquiring units or withdrawing from the Funds. However, the cost of acquiring or selling investments or the buying or selling of units is taken into account in setting the unit price payable on application or withdrawal (see “Swing pricing adjustment” below).

Your financial adviser can charge certain financial adviser fees if they have an agreement with us and you have authorised the fee to be deducted from your account balance and paid to them. Financial Adviser fees (if applicable) are paid monthly.

Further information about financial adviser fees including applicable charges and when they are payable can be found at www.milfordasset.com/forms-documents.

Performance fees

Performance fees are charged for Diversified Income, Active Growth, Australian Absolute Growth, Global Equity, Trans-Tasman Equity and Dynamic.

Balanced does not directly charge a performance fee, but it may invest in related Milford funds that have performance fees.

Performance fees are payable (to us), as a percentage of the excess return above the hurdle rate of return (after deduction of the base fund fee but before tax and the performance fee), assuming we have exceeded the high water mark. The hurdle rate of return is measured across twelve-month review periods to 31 March and is the minimum return the Fund must achieve before being able to charge a performance fee. The fees applying and each Fund’s hurdle rate and high water mark are shown in the table below.

For relative return funds you may be accruing a performance fee even if the Fund performance is negative, as long as it outperforms the benchmark return.

For absolute return style funds you may be paying a performance fee if the Fund’s performance beats the hurdle rate of return but does not beat the performance of the blend of market indices applying to the Fund*.

For a performance fee to be payable, the net asset value per unit of the Fund (before tax and distributions) must exceed the last applicable high water mark.

What are the fees?

		Performance Fee amount (as a percentage of the excess return)	Performance Fee cap	Hurdle Rate of Return*	High Water Mark
Absolute Return Funds	Diversified Income	10%	0.85% of average NAV	Official Cash Rate (OCR) plus 2.5%	<p>The Fund's previous highest ever net asset value per unit achieved on the performance payment review dates.</p> <p>Being an absolute return style fund, only absolute performance losses relative to the high water mark are carried forward into the next performance period.</p>
	Active Growth	15%	0.95% of average NAV	10%	
	Australian Absolute Growth	15%	0.95% of average NAV	OCR plus 5%	
Relative Return Funds	Global Equity	15%	1.65% of average NAV	MSCI World Index with net dividends reinvested (50% NZD-hedged)	<p>The Fund's net asset value per unit used in the calculation of the last performance fee paid on the performance payment review dates.</p> <p>Performance gains (if the high water mark is not achieved) or performance losses (relative to benchmark) are carried forward into the next performance period.</p>
	Trans-Tasman Equity	15%	1.45% of average NAV	A mix of 50% S&P/ASX 200 Total Return Index (100% NZD-hedged) and 50% S&P/NZX 50 Gross Index	<p>Performance fees may accrue when below the high water-mark, however are only payable once the high water-mark is exceeded on a performance payment review date.</p>
	Dynamic	15%	2.65% of average NAV	S&P/ASX Small Ordinaries Total Return Index (100% NZD-hedged)	
Performance payment review date (how often the performance fee may be paid)		<p>The 12-month period is to 31 March annually.</p> <p>The payment will be made within 10 business days and a new performance period will start.</p>			

* In our Fund Updates we are required to report the Fund's performance against a market index and have therefore provided a blend of market indices that represent the Fund's target asset class positions.

Swing pricing adjustment

Investors in a Fund can suffer dilution in value of their unitholding as a result of transaction costs brought about by other investors buying or selling units in the Fund. This reduction in value is due to the costs incurred when trading the Fund's underlying assets. In order to mitigate this effect and to protect unitholders' interests, we adopt a swing pricing mechanism as part of our unit valuation process. We calculate a swing factor adjustment for each Fund that, subject to a threshold being met, is applied daily when setting the price for applications and withdrawals.

The swing factor adjustment is not a fee. It is retained in the Fund to offset against the estimated transaction costs that arise from investors' applications and withdrawals. The amount of the adjustment may vary between Funds and is reviewed by us periodically in line with current market trading costs. Swing factor adjustments may change, particularly in times of heightened market volatility. Please note that the adjustment may not entirely cover transaction costs in all circumstances.

For each fund's current swing factor adjustment, please see www.milfordasset.com/forms-documents.

For further information please refer to the "Investor Guide" for the Funds which can be found at www.milfordasset.com/forms-documents or www.disclose-register.companiesoffice.govt.nz.

Example of how fees apply to an investor

Ella invests \$10,000 in Balanced. She is not charged an establishment fee or a contribution fee, because there are currently none. A swing factor adjustment of 0.12%* is applied to the unit price she pays for her investment. This equates to \$12 and is paid into the Fund, not to us.

This brings the starting value of her investment to approximately \$9,988.

She is also charged management and administration fees (base fund fee), which works out to about \$105 (1.05% of \$9,988). These fees might be more or less if her account balance has increased or decreased over the year.

Ella may also be indirectly charged a performance-based fee if the underlying Milford Investment Funds in which Balanced invested earned more than their target.

Over the year, Ella pays no other charges.

* For this example, an assumption has been made that there has been a net daily inflow to Balanced prompting a swing factor adjustment and the unit price has therefore swung up. For each Fund's current swing factor adjustment, please see www.milfordasset.com/forms-documents.

Estimated total fees for the first year

Fund	Fund charges	Other Charges
Balanced	\$105	NIL

See the latest Fund Update for an example of the actual returns and fees investors were charged over the past year.

This example applies only to Balanced. If you are considering investing in other Funds, this example may not be representative of the actual fees you may be charged.

The fees can be changed

The existing fees may be changed or new fees imposed, provided we give you notice. We must publish a Fund Update for each Fund showing the fees actually charged during the most recent year. Fund Updates, including past Updates, are available at www.milfordasset.com/forms-documents or at www.disclose-register.companiesoffice.govt.nz.

What taxes will you pay?

Each Fund is a portfolio investment entity ('PIE'). The amount of tax you pay is based on your prescribed investor rate ('PIR'). To determine your PIR go to <https://www.ird.govt.nz/pir>. If you are unsure of your PIR, we recommend you seek professional advice or contact Inland Revenue.

It is your responsibility to tell Milford your PIR when you invest or if your PIR changes. If you do not tell Milford, a default rate may be applied.

If the rate applied to your PIE income is lower than your correct PIR you will be required to pay any tax shortfall as part of the income tax year-end process. If the rate applied to your PIE income is higher than your PIR any tax over-withheld will be used to reduce any income tax liability you may have for the tax year and any remaining amount will be refunded to you.

You must provide us with your IRD number when you invest. In most instances, failure to do so within six weeks means we will need to close your account. You must provide us with both your IRD number and PIR, or tax is required to be deducted at the highest PIR. Current PIRs can be found in the application form at the back of this PDS.

We may be notified by Inland Revenue to update your PIR if they believe it is incorrect. We are required to apply this updated PIR. However, you can provide us with a different PIR if you believe that the Inland Revenue notified PIR is incorrect. Contact Inland Revenue for more information.

Please see the Investor Guide at www.milfordasset.com/forms-documents or www.disclose-register.companiesoffice.govt.nz for further information on tax.

B - Entity Foreign Tax Residency Details

International tax compliance regulations have been introduced to protect the integrity of tax systems around the world. These require Milford, along with other financial institutions, to collect information about their clients' foreign tax residency. Further information about the Foreign Account Tax Compliance Act ('FATCA') and the Common Reporting Standard ('CRS') is available from Inland Revenue, www.ird.govt.nz/international-tax/exchange-of-information.

If you need tax advice, please contact a qualified tax professional.

1. Is the entity a foreign tax resident? Yes No

If 'Yes' please list below all countries, other than New Zealand, in which the entity is a tax resident and provide the Tax Identification Number ('TIN') for each country.

Country of Tax Residence	TIN (or reason why TIN was unable to be obtained)

2. Is the entity a Financial Institution for FATCA or CRS purposes?

The term Financial Institution ('FI') as defined by FATCA and CRS includes custodial institutions, depository institutions, investment entities or specified insurance companies. A family trust is likely to be a Financial Institution if 50% or more of the trust's income is from financial assets and is managed by another Financial Institution.

- No - please continue to Question 3 below
- Yes - if applicable, please provide your Global Intermediary Identification Number (GIIN)

GIIN:

- then complete both column A and B in the table below, then continue straight to Section C

A: CRS FI Status	B: FATCA FI status
Select from the list below: <input type="checkbox"/> Managed investment entity that is resident in a jurisdiction that is not participating in the OECD's CRS regime* (If selected, ensure you also complete Section D for each Controlling Person* as applicable) <input type="checkbox"/> Other Financial Institution	Select from the list below: <input type="checkbox"/> New Zealand Financial Institution <input type="checkbox"/> IGA foreign Financial Institution <input type="checkbox"/> Participating foreign Financial Institution <input type="checkbox"/> Deemed compliant Financial Institution <input type="checkbox"/> Other - Please describe: <hr style="width: 80%; margin-left: 0;"/>

* The phrase "managed investment entity that is resident in a jurisdiction that is not participating in the OECD CRS regime" captures any entity, the gross income of which is primarily attributable to investing, reinvesting, or trading in financial assets, and that is (i) managed by a Financial Institution; and (ii) not tax resident in a jurisdiction with which an agreement is in place in relation to the automatic exchange of financial account information as set out in the CRS.

3. Is the entity an Active or Passive Non-Financial Entity (NFE)?

Generally, an entity will be an Active NFE if less than 50% of its income is passive income and less than 50% of its assets produce (or could produce) passive income. An entity will be a Passive NFE if it primarily (50% or more) derives passive income and/or has assets that primarily (50% or more) produce (or could produce) passive income. **Passive income** generally includes non-trading investment income in the form of: interest or equivalents, dividends, annuities, other financial arrangements' income, and rents and royalties.

- Active NFE - please continue to Section C
- Passive NFE - please continue to Section C and ensure you also complete Section D for each Controlling Person* as applicable

* Controlling Person means any individual who can exercise control over the investing entity or any other natural person exercising or having the ability to exercise control (including through an intermediary, or a chain of control or ownership). For example, any individual who owns, directly or indirectly, more than 25% of a company's share capital or the trustee, beneficiary (who has received a distribution), appointer or settlor of a trust.
