

Active Growth Fund

Portfolio Investment Entity

Monthly Fact Sheet as at 31 May 2022

Portfolio Managers

Jonathan Windust
Portfolio Manager

William Curtayne
Co-Portfolio Manager

The Fund fell 1.1% in May in what was another volatile month for share market indices (New Zealand -4.9%, Australia -2.6%, global -0.2%). Share markets continue to be impacted by uncertainty due to the war in Ukraine, high inflation, rising interest rates and the economic outlook. The New Zealand share market fell in response to rises in interest rates which put pressure on company valuations and company earnings. The Reserve Bank of New Zealand lifted the official cash rate by 0.5% to 2.0% during the month and forecast rates going to 3.9% in the middle of next year. The Fund out-performed market returns due to having more defensive strategies in place including lower weights toward shares and avoiding companies with stretched valuations.

Key company performers during the month included energy companies; EOG (+17.3%) and Shell (+11.8%) and global banks Barclays (+14.1%) and JP Morgan (+10.8%). Energy companies continue to benefit from high oil prices and the strong cashflows that they generate. Global banks are a beneficiary of higher interest rates as they are able to deploy their assets at higher yields. During the month the Fund added to our holding in small business accounting and tax software company Intuit. Intuit reported a strong quarterly result with revenues up 35%. We believe Intuit is attractively valued, well managed and has a long runway for future growth.

The short-term outlook for shares remains uncertain with headwinds of higher inflation and higher interest rates which are likely to slow medium-term company growth prospects. Share market valuations have generally improved following market falls and in many cases now reflect a more difficult earnings outlook and high levels of uncertainty. Given the uncertain environment, the Fund remains more defensively positioned than typical, with a lower weight towards shares. The Fund has increased its holdings in fixed income securities which we believe are reflecting the possibility of higher interest rates. The Fund remains active to isolate those companies which we believe have strong risk adjusted return prospects.
