The Fund was up 0.6% in February, a good result relative to share market indices in New Zealand, Australia and the United States, which fell 3.0%, 3.8% and 1.0% respectively. Share markets gave back some of the recent gains in response to signs of slowing growth in the United States and increased uncertainty around tariffs. The Fund performed well due to our overweight position in relation to the United Kingdom which rose 2.0%, good company selection and active management of currency and fixed income.

Key performers for the month included Australian gas infrastructure company APA Group (+8.2%), European beverage company Coca-Cola Europacific Partners (+9.8%), Bank of Ireland (+17.8%) and NatWest Group (+10.6%). These companies produced good quarterly earnings results and benefited from the markets' shift to look for value and companies with defensive and less cyclical earnings. During the month the Fund took advantage of market opportunities to add holdings in Australian healthcare company CSL, New Zealand retirement village company Ryman Healthcare, Australian property company GMG and New Zealand energy company Mercury Energy.

Looking forward, shares remain supported by solid growth in the US, the prospect of further interest rate cuts (outside the US) and continued investor enthusiasm. The key risk for share markets is that investor enthusiasm has led to high valuations in many companies (particularly US growth companies) and uncertainty around government policy. High valuations increase the risk of market falls if growth disappoints. Outside of the US, valuations are more reasonable however, this is offset by a lower growth environment. The Fund has increased allocations to the United Kingdom where we believe valuations are attractive and that growth could improve with falling inflation and interest rates. The strategy of the Fund remains active and to construct a portfolio of companies with good medium-term risk/return prospects and be disciplined on valuation.
