The Fund fell 1.5% in August. After a promising start to the month, we saw a global sell-off in share markets, following a speech from Jerome Powell, the Chair of the US Federal Reserve, where he made it clear he is committed to getting inflation under control, despite signs that economic growth is slowing.

In our international portfolio, commodity related names outperformed despite weakness seen in the price of oil and other commodities. The top contributor in August was energy company Shell (+6.1%). One of the attractions of Shell is their commitment to carbon reduction. Encouragingly, Shell has made large investments in renewable energy including wind, solar and hydrogen as well as vehicle charging infrastructure. US healthcare insurer Elevance Health (+1.7%) was another standout, proving its defensive qualities in a tough month for shares. Other highlights included financial giant Charles Schwab (+3.1%) a key beneficiary of higher interest rates and Cheniere Energy (+7.3%) one of the largest LNG producers in the world benefitting from high natural gas prices.

Underperformers in August were semiconductor company Analog Devices (-11.4%) on concerns of slower demand ahead and pharmaceutical company Bristol Myers (-8.6%) on a mixed data readout from a next generation anticoagulant drug trial. We continue to remain positive on both companies over the medium term.

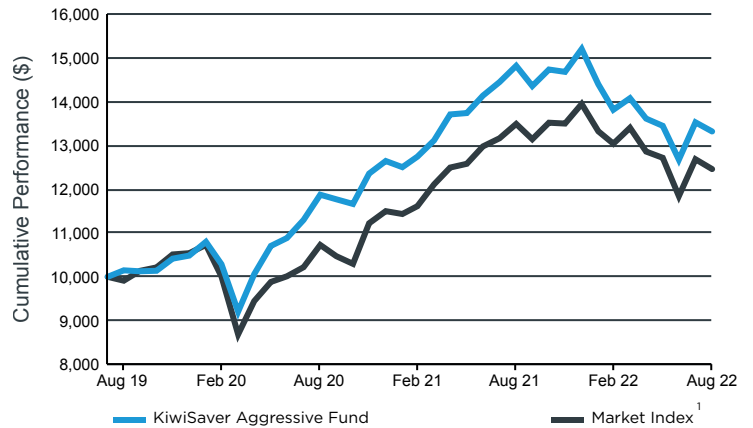

Closer to home, Australasian markets outperformed in August. Strong performers included Australian miner IGO (+21.7%), a key supplier of both lithium and nickel which are essential as the world transitions to electric vehicles and renewable energy. BHP Group (+5.0%) and Santos (+9.7%) also had a solid month. In the New Zealand market, Infratil (+8.0%) outperformed and after a challenging period, a2 Milk (+24.8%) soared, on strong full year results as infant formula sales recovered.

Looking ahead, we remain cautious for now and are holding higher levels of cash until we see a sustained decline in inflation.
