This document replaces the Product Disclosure Statement dated 28 February 2019

This document gives you important information about this investment to help you decide whether you want to invest. There is other useful information about this offer on www.disclose-register.companiesoffice.govt.nz. Milford Funds Limited has prepared this document in accordance with the Financial Markets Conduct Act 2013. You can also seek advice from a financial adviser to help you to make an investment decision.

1. Key Information Summary

What is this?

This is a managed investment scheme. Your money will be pooled with other investors' money and invested in various investments. Milford Funds Limited ('Milford', 'we', 'our', 'us') will invest your money and charge you a fee for its services. The returns you receive are dependent on the investment decisions of Milford and the performance of the investments. The value of those investments may go up or down. The types of investments and the fees you will be charged are described in this document.

What will your money be invested in?

The Milford Investment Funds ('Milford Funds') scheme offers eleven funds ('Funds') for you to invest in. These investment options are summarised below. More information about the investment target and strategy for each investment option is provided at Section 3 "Description of your investment option(s)".

See Section 4 "What are the risks of investing?" for an explanation of the risk indicator and for information about other risks that are

not included in the risk indicator. To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz/tools/investor-kickstarter.

Who manages the Milford Funds?

The manager of Milford Funds is Milford. See Section 7 "Who is involved?" for more information.

What are the returns?

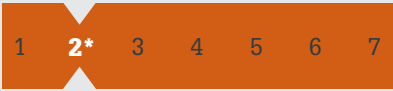

The return on your investment comes from:

- any change in the unit price; and
- any income distributions made from the Fund.

We intend for Diversified Income, Trans-Tasman Bond, Global Corporate Bond and Conservative to make distributions quarterly and for Trans-Tasman Equity to make distributions twice yearly.

Other Funds are not currently intended to make distributions.

See Section 2 "How does this investment work?" for more information.

How can you get your money out?

Investments in the Funds are redeemable. As described in Section 2 “How does this investment work?” we may, upon providing notice to the Supervisor, defer payment or suspend your ability to withdraw your investment, in certain circumstances.

Your investment in these Funds can be sold but there is no established market for trading these financial products. This means that you may not be able to find a buyer for your investment.

How will your investment be taxed?

Each Fund is a portfolio investment entity (‘PIE’). The amount of tax you pay in respect of a PIE is based on your prescribed investor rate (‘PIR’). To determine your PIR, go to www.ird.govt.nz/toii/pir/workout. See Section 6 of this PDS (“What taxes will you pay?”) on page 18 for more information.

Where can you find more key information?

Milford is required to publish quarterly updates for each Fund. The updates show the returns, and the total fees actually charged to investors, during the previous year.

The latest Fund Updates are available at www.milfordasset.com/forms-documents/fund-updates. We will also give you copies of those documents on request.

2. How does this investment work?

The Milford Funds are a managed investment scheme (and each Fund is established as a trust) that is governed by a trust deed.

Your money is pooled with that of other investors of the relevant Fund. However, the assets of one Fund cannot be used to cover the liabilities of another Fund. The interests of investors are represented by units, which confer an equal interest in a Fund and are of equal value.

The value of units in each Fund will increase or decrease according to the changing value of the underlying assets in which the Fund has invested.

The Funds are actively managed portfolios that provide for a broad range of investment options.

The Funds also utilise the benefits of the PIE tax regime. The Funds are managed by Milford, a wholly owned subsidiary of Milford Asset Management Limited.

We intend for:

- Diversified Income to make distributions quarterly in February, May, August and November; and
- Conservative to make distributions quarterly in January, April, July and October; and
- Trans-Tasman Bond and Global Corporate Bond to make distributions quarterly in March, June, September and December; and
- Trans-Tasman Equity to make distributions semi-annually in March and September.

No other Fund currently makes regular distributions. You can, however, make withdrawals from any Fund at any time.

A distribution represents a percentage of income received from your investment.

Making investments

The minimum initial lump sum investment in a Fund is \$10,000. For Trust, Company and Partnership applications the minimum initial investment per account is \$100,000 (which can be split across more than one Fund). You can also make additional lump sum and/or regular contributions to a Fund at any time. We may impose conditions or restrictions on the offer of units as determined by us from time to time.

The Manager has the discretion to include trading costs in determining the unit price received.

Withdrawing your investments

You may withdraw all or part of your investment at any time by completing a withdrawal request form. We will generally aim to make the withdrawal payment within three business days after the day used for the unit price.

While it is intended that valid applications and withdrawals will be processed at the next available unit price after the application or withdrawal process is completed, up to 10 business days' notice of a large application or withdrawal may at times be required.

Unless you are fully withdrawing your investment (or we determine otherwise), a minimum balance (\$10,000) must be maintained. All units are redeemed for cash.

We may, with prior notice to the Supervisor, suspend withdrawal requests or defer payment of withdrawals where, due to certain circumstances arising (for example, political or market conditions), we form the opinion that it is not practicable or would be prejudicial to the general interests of unitholders, or that suspension is desirable for the Fund.

The unit withdrawal price is calculated by dividing the net asset value of the Fund by the number of units on issue, after deducting (at our discretion) estimated costs which would be incurred in selling investments of the Fund.

How to switch between Funds

You can switch between Funds. This will be considered a withdrawal from one Fund and an application for units in another Fund. All the conditions and restrictions on applications and withdrawals will therefore apply.

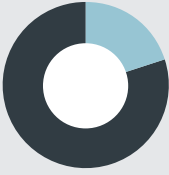

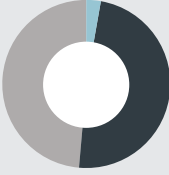

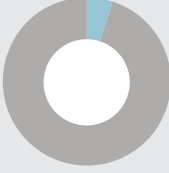

Need more information?

More information on investing and withdrawals is included in the Investor Guide found at www.milfordasset.com/forms-documents or www.disclose-register.companiesoffice.govt.nz.

† The Manager may consider a new direct wholesale investor at its discretion from time to time.

^ Note: Targets indicate what are expected to apply over the course of an economic cycle, and should be considered as general only. Milford is an active manager and may at times deploy investment strategies that differ (within the allowable minimum and maximum bounds) materially from the above targets.

* To calculate the risk indicator for the following Funds we have used a mix of actual returns and market index returns to provide completed 5 year returns as they were launched within the last 5 years: Global Corporate Bond, Conservative, Australian Absolute Growth and Cash.

The actual returns used for Global Corporate Bond are from when the Fund was previously offered to wholesale investors only and have been adjusted for current annual fund charges.

Market index returns have been used for the period in the table below to calculate the risk indicator for:

- Diversified Income as its investment policy has changed significantly and its returns before the change would not reflect its current investment policy; and
- Global Equity as its investment policy has changed significantly and its returns before the change would not reflect its current investment policy.

This means that the risk indicators for the Funds in the table below do not reflect the actual returns for the period specified in the table below. Therefore these risk indicators may provide a less reliable indicator of the potential future volatility of these Funds.

Fund	Period of market returns used
Conservative	01/07/2014 to 31/08/2015
Diversified Income	01/07/2014 to 31/08/2015
Australian Absolute Growth	01/07/2014 to 28/02/2018
Cash	01/07/2014 to 31/12/2018
Global Corporate Bond	01/07/2014 to 31/01/2017
Global Equity	01/07/2014 to 30/06/2018

** After the base fund fee but before tax and before the performance fee (if applicable).

*** The Cash Fund's fixed interest allocation will be invested in commercial paper and term deposits.

Note: Relevant benchmarks and relevant market indices can be found in the Statement of Investment Policy and Objectives ('SIPO').

We regularly review our SIPO in consultation with the Supervisor. We will notify you of any material changes before making them. Changes will also be communicated no later than the next quarterly Fund Update. The current SIPO can be found at: www.milfordasset.com/forms-documents or at www.disclose-register.companiesoffice.govt.nz.

Further information about the assets in the Funds can be found in the Fund Updates at: www.milfordasset.com/forms-documents/fund-updates or at www.disclose-register.companiesoffice.govt.nz.

4. What are the risks of investing?

Understanding the risk indicator

Managed funds in New Zealand must have a standard risk indicator. The risk indicator is designed to help investors understand the uncertainties both for loss and growth that may affect their investment. You can compare funds using the risk indicator.

See Section 3 “Description of your investment option(s)” for the risk indicators which have been calculated for the Funds.

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the Fund’s assets goes up and down (volatility). A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks (described under the heading “Other specific risks”) that are not captured by this rating.

This risk indicator is not a guarantee of a Fund’s future performance. The risk indicator is based on the returns data for the five years to 30 June 2019. While risk indicators are usually relatively stable, they do shift from time to time. You can see the most recent risk indicator in the latest Fund Update for the relevant Fund.

The risk indicator has been calculated on the basis of five years of historic Fund returns where available, and market index returns where required. Hence, the returns data used may not represent a full investment cycle for the Fund and the risk category may be different if calculated using a longer timeframe. If the period of returns used reflected an environment of unusually low or unusually high volatility, the risk indicator may not reflect the Fund’s future volatility.

General investment risks

Some of the things that may cause the Fund’s value to move up and down, which affect the risk indicator, are: investment return risk, market risk, interest rate risk, credit risk, equity risk, liquidity risk and currency risk. These risks are summarised below:

Investment return risk

Past performance is no guarantee of future performance. As Milford is an active manager, there is a risk that a Fund may underperform compared with its investment objective or with the market.

Market risk

Returns of a Fund will be affected by the performance of the investments chosen for that Fund which may in turn be affected by the performance of the investment markets generally. This risk, related to market performance, includes demand and supply in the market and economic and regulatory conditions, including market sentiment, inflation, interest rates, employment, political events, environmental and technological issues and consumer demands.

Interest rate risk

The risk that the market value of the investments of a Fund can change due to changes in interest rates. The market value of fixed interest securities can fluctuate significantly with relatively small changes in interest rates.

Credit risk

The value of debt securities may be impacted by the issuer's ability to pay interest and principal owed as they become due. If there is a negative perception of the issuer's ability to meet its payment obligations, the value of the debt security may decrease.

Equity risk

A Fund's investment in an entity may be affected by unexpected changes in that entity's operations or business environment, including the risk that the entity may become insolvent. If this occurs, the Fund may receive a smaller or no return from, or it may lose, its investment in the entity.

Liquidity risk

Some investments may not be easily converted into cash with little or no loss of capital and minimum delay, because of insufficient availability of buyers, suspension of trading on request from the market regulator or the entity involved, fund outflows, or disruptions in the market place. Securities of small entities in particular may, and especially in falling markets, become less liquid. Milford may hold a small number of unlisted securities that are far less liquid than listed securities.

Currency risk

Where underlying investments are invested in jurisdictions outside of New Zealand, the returns may be affected by movements between the other currencies and the New Zealand dollar.

Other specific risks

Circumstances may arise that significantly increase the risk to returns (and which are not reflected in the risk indicators). These are broader risks that the investor should be aware of.

Fund of funds risk

The Funds invest primarily into other Milford managed funds. The Funds may also invest into externally managed funds. An investment of a Fund in an underlying managed fund may be affected by unexpected changes in that underlying managed fund's operations or business environment. There may also be a risk that the underlying managed fund may have its assets frozen for a period of time or the manager of that fund may suspend withdrawals. This may have an impact on your ability to withdraw or switch between the Funds.

To reduce this risk Milford monitors and reviews the investment performance of underlying fund managers.

More detail on these risks and other general risks is included in Milford's Other Material Information document available at www.milfordasset.com/forms-documents or www.disclose-register.companiesoffice.govt.nz.

5. What are the fees?

You will be charged fees for investing in the Milford Funds. Fees are deducted from your investment and will reduce your returns. If Milford invests in other funds, those funds may also charge fees. The fees you pay will be charged in two ways:

- regular charges (for example, annual fund charges). Small differences in these fees can have a big impact on your investment over the long term;
- one-off fees (currently none).

Total estimated annual fund charges, performance-based fees and other charges

Fund		Estimated annual fund charges			Other Charges
		Base fund fee*	Performance-based fees**	Total	
Multi-Asset Funds	Conservative	0.95%	N/A	0.95%	Nil
	Diversified Income	0.65%	0.30%	0.95%

	Trans-Tasman Equity	1.05%	0%	1.05%	
	Dynamic	1.35%	0%	1.35%	

*The base fund fee includes an estimate of applicable underlying fund charges ranging from 0.00% to 0.02%. Actual charges will depend on the performance of the underlying funds and will vary from the estimates.

** To estimate the annual performance fee charges, we have simulated the performance of the Fund using its assumed risk and return profile, against its stated performance benchmark over a 20-year time horizon.

The estimated performance fee result is 0% for Global Equity, Trans-Tasman Equity and Dynamic as their performance benchmark is the market index and they would need to achieve above the market index for a performance fee to be payable.

*** Australian Absolute Growth base fund fee reduces by 0.15% if at the end of the month the Fund is invested in greater than 50% cash. For the purposes of a reduced base fund fee, cash includes investments in term deposits. The reduced fee will be applied in the following month.

^ From 1 August 2019 the annual fund charges for Trans-Tasman Bond reduce from 0.75% to 0.65% and the annual fund charges for Global Corporate Bond reduce from 0.95% to 0.85%.

Historical average performance fees for completed performance years since each Fund's inception:

Fund	Historical average performance-based fees
Diversified Income	0.75%
Balanced	0.58%
Active Growth	0.75%
Australian Absolute Growth	0.36%
Global Equity	0.47%*
Trans-Tasman Equity	0.63%
Dynamic	0.35%

*The calculation of the Global Equity historical average performance based fee includes the period prior to 1 October 2018 when the fund's performance hurdle rate of return was OCR plus 5% per annum.

Please refer to the Investor Guide for more information on performance fees.

Actual fund charges over the past disclosure year are available in the latest Fund Updates.

Total annual fund charges are set out as a percentage of the Fund's net asset value.

Annual fund charges are made up of:

- a base fund fee
- any applicable estimated performance fees.

The base fund fee covers:

- normal Fund operating costs such as investment management, supervisor, custodial, fund accounting, audit and legal costs and is paid monthly. These fees are deducted from, and are reflected in, the Fund unit prices of the relevant Funds; and
- estimated underlying external fund charges, where applicable.

If Milford is unable to determine the underlying external fund charges, these have been estimated from recent financial statements based on the actual costs as a percentage of the average net asset value that were charged for the fund's previous financial year. These are reflected in the prices of the external funds that are used in the calculation of the unit price of the relevant Fund.

Performance fees are deducted from, and are reflected in, the unit prices of the relevant Funds, or deducted from and reflected in the unit prices of other Milford managed funds the relevant Funds may invest in.

Fees are inclusive of GST where applicable.

We can charge other fees on an individual basis for investor specific decisions or actions, such as entry or exit fees. At the date of this document, there is no separate entry or exit fee for acquiring units or withdrawing from the Funds. However, the cost of acquiring or selling investments or the buying or selling of units may be taken into account in setting the unit price payable on application or withdrawal.

Performance fees

Balanced does not directly charge a performance fee, but it may invest in related Milford funds that have performance fees (see table below).

We are entitled to be paid a performance fee for Diversified Income, Active Growth, Australian Absolute Growth, Global Equity, Trans-Tasman Equity and Dynamic.

Our performance fees are based on a hurdle rate of return. The 'hurdle rate' is the minimum return the Fund must achieve before being able to charge a performance fee. In our Fund Updates we are required to report the Fund's performance against a market index and have therefore provided a blend of market indices that represent the Fund's target asset class positions.

Global Equity, Trans-Tasman Equity and Dynamic are relative return funds, which means that the hurdle rate of return is based on the Fund outperforming its market index.

Diversified Income, Active Growth and Australian Absolute Growth are absolute return style funds. The hurdle rate of return (which represents the Fund's aims) is the measure for each Fund's performance-based fees. This means you may be paying a performance fee if the Fund's performance beats the hurdle rate of return but does not match or beat the performance of the blend of market indices.

Element	Description	Absolute Return Funds			Relative Return Funds		
		Diversified Income	Active Growth	Australian Absolute Growth	Global Equity	Trans-Tasman Equity	Dynamic
Hurdle rate of return (benchmark)	The return that must be achieved before a performance fee applies (after the base fund fee but before tax and before the performance fee).	Based on the OCR plus 2.5% per annum measured across six-month performance payment review periods.	Based on 10% per annum measured across six-month performance payment review periods.	Based on the OCR plus 5% per annum measured across six-month performance payment review periods.	MSCI World Index with net dividends reinvested (50% NZD-hedged). Element	Description	Absolute Return Funds			Relative Return Funds		
		Diversified Income	Active Growth	Australian Absolute Growth	Global Equity	Trans-Tasman Equity	Dynamic
Fee on excess return	The fee payable on the amount of the return above the hurdle rate of return.	The performance fee is equal to 10% of the amount by which the performance of the Fund (after the deduction of the base fund fee but before tax and before the performance fee) exceeds the hurdle rate of return.	The performance fee is equal to 15% of the amount by which the performance of the Fund (after the deduction of the base fund fee but before tax, the performance fee and distributions) exceeds the hurdle rate of return.				
Performance fee cap	A cap (if any) on the amount of the performance fee.	There is no cap on the level of performance fees.					
High water mark	<p>Absolute Return Funds</p> <p>That Fund's previous highest ever net asset value per unit achieved on the performance payment review dates.</p>	Where the value of the Fund goes up and then down over multiple periods, this ensures that no performance fee is payable until the last applicable high water mark has been reached.			For a performance fee to be payable at the end of a particular six month period, the net asset value per unit of the Fund (before tax and before the performance fee and distributions) must exceed the high water mark.		
	<p>Relative Return Funds</p> <p>That Fund's net asset value per unit used in the calculation of the last performance fee paid on the performance payment review dates.</p>	Absolute performance losses are carried forward into the next performance period.			Performance gains (if the high water mark is not achieved) or performance losses (relative to benchmark) are carried forward into the next performance period.		
Performance payment review date	How often the performance fee may be payable.	Intended at the date of this document to be six months to 31 March and six months to 30 September, except for Australian Absolute Growth which is six months to 30 June and six months to 31 December. The payment will be made within 10 business days and a new performance period will start.					
Performance fees are payable to Milford as Manager of the Funds.							

Example of how fees apply to an investor

Ella invests \$10,000 in Balanced. She is not charged an establishment fee or a contribution fee, because there are currently none.

This means the starting value of her investment is \$10,000.

She is also charged management and administration fees (base fund fee), which works out to about \$107 (1.07% of \$10,000). These fees might be more or less if her account balance has increased or decreased over the year.

Ella may also be indirectly charged a performance-based fee if the underlying Milford Investment Funds in which Balanced invested earned more than their target.

Over the year, Ella pays no other charges.

Estimated total fees for the first year

Fund	Fund charges	Other Charges
Balanced	\$107	NIL

See the latest Fund Update for an example of the actual returns and fees investors were charged over the past year.

This example applies only to Balanced. If you are considering investing in other Funds, this example may not be representative of the actual fees you may be charged.

The fees can be changed

The existing fees may be changed or new fees imposed, provided we give you notice. We must publish a Fund Update for each Fund showing the fees actually charged during the most recent year. Fund Updates, including past Updates, are available at www.milfordasset.com/forms-documents or at www.disclose-register.companiesoffice.govt.nz.

6. What taxes will you pay?

Each Fund is a portfolio investment entity. The amount of tax you pay is based on your prescribed investor rate ('PIR'). To determine your PIR go to www.ird.govt.nz (search "Using Prescribed Investor Rates"). If you are unsure of your PIR, we recommend you seek professional advice or contact Inland Revenue.

It is your responsibility to tell Milford your PIR when you invest or if your PIR changes. If you do not tell Milford, a default rate may be applied. If the advised PIR is lower than the correct PIR, you will need to complete a personal tax return and pay any tax shortfall, interest, and penalties.

If the default rate or the advised PIR is higher than the correct PIR, you will not get a refund of any overpaid tax.

You must provide us with both your IRD number and PIR, or tax is required to be deducted at the highest PIR. Current PIRs can be found in the application form at the back of this PDS.

Please see the Investor Guide at www.milfordasset.com/forms-documents or www.disclose-register.companiesoffice.govt.nz for further information on tax.
